Let's Begin!

High School Presentations for High School Students

Planning to Transfer

Quick Discussion

WHAT??

The HAVE & HAVE NOTS

- ◆ As a result of this partnership, we create more HAVES. These students have additional social and educational capital to help them navigate the college system.
- ◆ Those who HAVE, are equipped and familiar with knowledge about terms and processes that will impact their college experience.
- ◆ When there are more HAVES, and less HAVE NOTS we increase the overall student success on our college campuses.

LIT SLIDE

- ◆ Students are less likely to attend college if loans are seen as a necessity to attending college (Burdman, 2005).
- ◆ Community colleges can be a broker between public schools, four-year colleges, and can even help connect students to business and community resources (Sink & Jackson, 2002; Amey, Eddy, & Ozaki, 2007).
- ◆ Early outreach is an opportunity to connect curriculum to careers and show college credentials can be beneficial in their future (Jobs for the Future, 2006).
